Re: Location in FCC Public File of Documents relating to:

Lists of the chief executive officers or members of the executive committee or board of directors, as applicable, of any entity that has paid for or furnished television broadcast programming that is political matter or matter involving the discussion of a controversial issue of public importance." This additional sponsorship identification information must be kept by all broadcast stations in their public inspection file pursuant to Section 73.1212(e) of the FCC's rules. To the extent stations place this material in their political file, which is common industry practice and which satisfies the rule's disclosure requirement, they would be required to upload these files on the same schedule as their political files

KSTP interfiles material responsive to this requirement in the Political Files section of KSTP's FCC-hosted online Public Inspection Files – in the same folders which contain the related commercial order, invoice, and other documents. They are uploaded on the same schedule as the corresponding political files.
